\* Height of the fittings to be respected is defined by the Technical Rules & Regulations

## MAIN FEATURES

Hall 1 is a large, one-storey, open space with a vast independent foyer which can be personalized with LED video walls. An impressive central colonnade characterizes the space which houses a raised platform, the perfect place for a food court or business meetings. It is well-lit, with a wooden ceiling contrasting the glossy floor, creating a warm and welcoming atmosphere. There are 2 accreditation desks, each seating 9 people and an adjacent café. It is the ideal location for hosting large-scale exhibitions, sporting events, gatherings, shows and catering events.

## FEATURES OF ELECTRIC PLANT

- Electrical outlet: 16A 5 Pole (3F+N-T)
- Power: 9 kw
- Tension: 380 v / 220 v

The electrical outlets in the exhibit areas are present on pillars.

## MAXIMUM CROWD CAPACITY

- Maximum crowd capacity for exhibition: 1,525 ppl
- Total evacuation capacity: 2,950 ppl
- Total number of emergency exits: 59
